

TECHNICAL INFORMATION

AMEC T-A Drill Inserts Speed And Feed Rates	482	"SG" Coating Benefits	216
Band Saw Blade Specifications	337	Performance Of Neutral, Right- Or Left-Hand Insert	457
Basics Of Blueprint Dimensional Tolerances	838	Phase-A-Matic Static Phase Converters	536
Boring Bar Overhang	438	Plasma Cutting Explained	1129
Boring Heads	613	Pneumatic Buyer's Guide	1115
Carbide Burr Applications	290	Press Fit Drill Jig Bushings & Liner Bushings.....	1155
Choosing A Live Center	576	Regal Triple Crown Taps Speed Tips	158
Choosing Insert Shape	393	Resharpener Koolcarb Drills	84
Coating Type Chart	15	Special Drill Request Form	24
Color Band Application Tap Selection Guide	154	Specifications For American Standard Spindle Noses	577
Cut-Off Application Guide	355	Standard Push Broaching Technique.....	314
Cutter Application Guide.....	402-403	Starrett Granite Surface Plates And Accessories	806
Cutting & Tapping Fluids Comparison Chart	1249	Stick Welding Explained	1126
Dimensional Guide To Self Holding Morse Tapers	622	T&O Carbide Grades	392
Dimensional Guide To V-Flange Tapers.....	626	T&O Milling Grades	392
Face Mill Lead Angle Choices	404	T&O Parabolic Jobber "UD" Drill Selection Guide	23
Face Milling Selector Guide	404	T&O Turning & Milling Grades	392
Files	1001, 1009	Tap Nomenclature	133
Gear Cutter Comparative Chart.....	302	The Recoil System	172
Glove Sizing Information.....	1361	Threading Tool Product Identification Guide	460
Grade Chart For Iscar Inserts	350	Turning Chipbreakers Application.....	393
Hardening/Tempering Data.....	1225	Valenite Failure Mode Guide	368
High Speed Steel Coating Types	208	Valenite Grade Information	366
How Spectra HP Wiper Inserts Work	373	Valenite Inch Straight Shank Boring Bar Nomenclature	375
How To Read A Starrett Micrometer	729	Valenite SpectraTurn Chipbreakers.....	367
Insert Identification System	446-447	Valenite ValGroove System.....	386-387
Knurling	565, 567	Welding Helpful Hints	1129
MIG Welding Explained	1127		
Minimum Countersink Diameter Size For Flat Head Cap Screws	119		
Mounting And Removing Chucks	612		
MULTI-TOOL Interchangeable Drilling Systems	484		

EXPERT METALWORKING SOLUTIONS

"Travers technical support is outstanding. The item your team recommended worked well. Thank you"

—J. Simmons, Penn Wire Products Corp.

- **FREE technical support**
- **Over 75 years of combined metalworking experience**
- **Numerous support channels** for research
- **Testing** of your materials

Have a tough job you need to run? Let us help. We'll gladly share our experience gained from many years in the industry to suggest solutions. Also, you can send in material samples, and we'll use our in-house testing area to find the best combination of cutting tools and feeds/speeds to maximize your output.

You can rely on Travers to be your production partner. Call us with your application questions at 1-800-234-9985.
